

HARNESS YOUR SERVO POWER

WITH PRIMETRIC PRECISION GEARHEADS FROM CGI

Since 1967, CGI, Inc. has provided precision power transmission component parts and gearhead assemblies for motion control and automation applications. CGI is proud to introduce the **PriMetric** precision planetary gearhead. You will find CGI's celebrated high performance and quality built into this new metric package. With the addition of the **PriMetric** family, CGI provides the widest range of standard gearhead ratios available. From the simple to the complex, CGI can supply off-the-shelf products or provide a custom-tailored solution. Give us a call at **800.568.4327** or visit us at **www.cgimotion.com**.
